47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition and entry to a market is key for consumers and our economy. Especially when it comes to internet, a service vital to be a part of todays society, access and options to keep pricing economical in a capitalist market. Net neutrality needs to come back. And our leaders in government need to stop giving huge players reporting record profits more money to build a fiber network that hasnt come to fruition. Keep sonic and other ISPs competitive.
